Premier of South Australia  
Parliament House  
North Terrace  
Adelaide SA 5000

**Re. Plans for High Rise near Parklands & Transit Corridors**

Dear Premier,

We, the members of [SENSATIONALADELAIDE](http://sensational-adelaide.com), representing a diverse cross-section of the South Australian community, request you continue strongly with your goal of increased density and high rise in the city, near Adelaide parklands, and along inner suburban transit corridors.

A vocal minority against such change will undoubtedly present themselves as being representative of the broader community, but this is far from the truth. Our membership, being 1000+ strong and representing many age groups & demographics, understand change is required, are excited by the prospect of being able to stay in Adelaide, living in or visiting dynamic inner-suburban communities with all they have to offer, including increased public transport facilities that will undoubtedly flourish as density increases.

The vocal minority, catching the media's attention, reflects negatively on the attitude of local South Australians, and perpetuates an image, both locally and interstate, that we all want gone.

While matters such as shadowing, heritage preservation, traffic and parking are important and must be carefully considered, there exists many suburban sites perfectly suited to increased height and density.

We request the State Government work to counter these concerns, initially on a case by case basis, and also the oxymoronic fear of increased inner-suburban density generating unsafe neighbourhoods and trending towards slums.

We congratulate the State Government for bringing South Australia to the cusp of being a progressive and exciting place to live. The current suite of projects (Adelaide Oval, HMRI, RAH, Riverbank Precinct, Freeways, Trams, Rail Electrification, etc) are major contributing factors to this turn around, but they alone will not suffice. We must work to eliminate the above concern.

Regards...

**Wayno**
